Project Title: Tamagotchi Website

I'd like to build this site as multiple pages with typical site navigation probably across the top. I think there is plenty of content and photography to build out individual pages.

- Home Page/Introduction – Introduce the common Tamagotchi shape/size and what a Tamagotchi is.
- The rise of Tamagotchi in Japan and its spread to the US
- History of Tamagotchi models
- Marketing and other media
- Gameplay (interacting with it and other players)
- Life cycle of pet
- Sources
